ARB Approved

Installation, Operation and Maintenance Manual
For the
Healy Phase II EVR System Including
Veeder-Root In-Station Diagnostics (ISD) System

Approved: August 31, 2005

NOTICE:

The ARB Approved Installation, Operation and Maintenance Manual for the Healy VR-201 and Healy/Veeder-Root VR-202 Executive Orders describes the tools, method and skill levels required to install the **Healy Phase II EVR System Not Including ISD System, ARB Executive Order VR-201-A and Healy Phase II EVR System Including ISD System, ARB Executive Order VR-202-A.**

Unless specified otherwise, only skilled technicians that are trained, certified and licensed by Healy Systems, Inc. (i.e. Healy Certified Technicians) are able to perform installation, maintenance or repairs of components manufactured by Healy Systems, Inc. or warranty will be void.

It is the responsibility of each Healy Certified Technician to be familiar with the current requirements of state, federal and local codes for installation and repair of gasoline dispensing equipment.

It is also the responsibility of the Healy Certified Technician to be aware of all the necessary safety precautions and site safety requirements to assure a safe and trouble free installation.

Table of Contents

Healy Installation, Operation and Maintenance Manual

Component	Manufacturer/Model	Starts on Page
Scheduled Maintenance	Healy Systems Phase II EVR	1
Nozzle	Healy Model 900 EVR	10
Tank Pressure Management System	Healy Model 9961	20
Inverted Coaxial Hoses	Healy Model 75B Series	27
Hose Adaptors	Healy Model CX6 Series	30
Reconnectable Breakaway Coupling	Healy Model 8701VV	31
Flow Limiter	Healy Model 1301	34
